Nonlinear Dynamics and Systems Theory

Volume 2, Number 1, 2002 ISSN 1562-8353

Academic Periodical Press

AIMS AND SCOPE

NONLINEAR DYNAMICS AND SYSTEMS THEORY is an international journal published twice per year in 2001-2002, and quarterly from 2003. The journal publishes papers in all aspects of nonlinear dynamics and systems theory according to its scope. The object of the journal is to promote collaboration in the world community and to develop the contemporary nonlinear dynamics and systems theory. It is aimed at publishing carefully refereed scientific papers and surveys in the following disciplines:

Analysis of uncertain systems + Bifurcations and instability in dynamical behaviors + Celestial mechanics, variable mass processes, rockets + Control of chaotic systems + Controllability, observability, and structural properties + Deterministic and random vibrations + Differential games + Dynamical systems on manifolds + Dynamics of systems of particles + Hamilton and Lagrange equations + Hysteresis + Identification and adaptive control of stochastic systems + Modelling of real phenomenon by ODE, FDE and PDE + Nonlinear boundary problems + Nonlinear control systems, guided systems + Nonlinear dynamics in biological systems + Nonlinear fluid dynamics + Nonlinear oscillations and waves + Nonlinear stability in continuum mechanics + Non-smooth dynamical systems with impacts or discontinuities + Numerical methods and simulation + Optimal control and applications + Qualitative analysis of systems with aftereffect + Robustness, sensitivity and disturbance rejection + Soft computing: artificial intelligence, neural networks, fuzzy logic, genetic algorithms, etc. + Stability of discrete systems + Stability of impulsive systems + Stability of large-scale power systems + Stability of linear and nonlinear control systems + Stability theory of intelligence mediums + Stochastic approximation and optimization + Symmetry in mechanics.

We invite submissions dealing with (possibly unsolved) problems of NONLINEAR DYNAMICS AND SYSTEMS THEORY arising from applications. The journal also invites book reviews.

NONLINEAR DYNAMICS AND SYSTEMS THEORY

An International Journal of Research and Surveys

Ordering Information:

Two issues per volume in 2001-2002 and four issues per volume from 2003. Subscriptions are renewed on an annual basis 2002 Volume 2. Journal subscriptions are sold on a per volume basis only; single issues of the current volume are not available separately. All issues are dispatched by airmail throughout the world.

Subscription Rates:

Base list subscription price per volume: US$ 99.00.
This price is available only to individuals whose library subscribers of the Journal OR who warrant that the Journal is for their own use and provide a home address for mailing. Separate rates apply to academic and corporate/government institutions. Postage and hendling charges are extra.

Publication Schedule Information:

To ensure your collection is up-todate, please contact by e-mail: anchern@stability.kiev.ua, for information about the latest issue published.

Please fill in the order form and send to:

Department of Processes Stability,
S.P.Timoshenko Institute of Mechanics NAS of Ukraine,
Nesterov str.,3, 03057, Kiev-57, MSP 680, Ukraine
Tel: ++38-044-456-6140; Fax: ++38-044-456-1939
E-mail: anchern@stability.kiev.ua
